

Fremar LLC

DP Soybean Storage Program

Fremar LLC will be accepting soybeans delivered to all Fremar locations as space is available for no charge DP storage until June 30, 2010.

Program is subject to availability of space at each location and is subject to change at any time.

Beans not sold as of market close on June 30, 2010 will be charged a 10 cent per bushel per month storage fee until new crop 2010 storage policies are published. Any unsold beans will be automatically rolled to Fremar LLC fall 2010 storage rates as of September 30, 2010.

Any soybeans that are delivered for no charge DP storage will only be eligible to be sold on the spot price and will not be eligible to be applied to any existing sale.

Beans eligible for no charge DP storage must be delivered between February 1, 2010 and March 12, 2010.

The dates of delivery are subject to change at any time.

This is for regular soybeans only. Vistive beans are not applicable.

DP storage contracts will be issued every 10 days.
